Projects

JanMitra – Civic Issue Reporting Platform

2025

Hackathon Project

Built a real-time civic platform for citizens to report and track local issues using **React.js**, **Tailwind CSS**, **Node.js**, **Express**, **MongoDB**. Integrated interactive maps (**MapBox**, **Leaflet.js**) and implemented secure authentication for scalable engagement. Managed frontend, API integration, and backend data flow to ensure fast performance and responsive design.

Personal Portfolio Website

2024

Personal Project

Designed and deployed a responsive portfolio showcasing projects and skills using **HTML**, **CSS**, **JavaScript**. Applied semantic HTML, CSS animations, accessibility, and integrated contact form with GitHub & LinkedIn links.

Experience

Web Development Intern

July 2025 – Oct 2025

KathaKaal (Startup), Remote

Built and deployed full-stack web applications using **React.js**, **TypeScript**, **Node.js**, **Express.js**, **Tailwind CSS**. Integrated authentication, RESTful APIs, and a five-step KYC flow for borrower onboarding. Developed reusable, accessible UI components and collaborated with cross-functional teams in agile sprints.

Achievements

Smart India Hackathon 2025 (Internal Round)

Secured 6th place out of 520 teams with team *Code4Earth*.

Developed JanMitra, a civic issue reporting platform with real-time tracking, interactive maps, and scalable backend. Led frontend development, API integration, and database management using **React.js**, **Tailwind CSS**, **Node.js**, **Express**, **MongoDB**, **MapBox**, **Leaflet.js**.
