EDUCATION

Bachelor of Technology (B.Tech) – CSE

2023 – Present

Kalinga Institute of Industrial Technology (KIIT)

CGPA: 9.70

Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS, CN

Higher Secondary

2023

Satish Chandra Memorial School

95.8%

Relevant Coursework: Computer Science with Python

EXPERIENCE

Full Stack Developer Intern

May 2026 – Present

Cop&Drop (Startup), Remote

- Implemented structured data (Organization, Product, Article, Brand, BreadcrumbList schemas) and metadata across 15+ pages in a Next.js App Router codebase, navigating server vs. client component constraints.
- Integrated Google Analytics 4 and Bing Webmaster Tools to establish search performance monitoring across the platform.

Web Development Intern | [Certificate]

July 2025 – Oct 2025

KathaKaal (Startup), Remote

- Built a 5-step KYC onboarding flow with Aadhaar & PAN verification (third-party API), cross-step state persistence, live camera capture modal, and client-side file and input validation.
- Implemented JWT auth with refresh token handling, session expiry, role-based route protection, and auto-redirect on token expiration across two user roles.
- Built reusable components – step progress indicator, camera modal, multi-format file upload – and collaborated with backend on token lifecycle and protected API integration.

PROJECTS

School Management System | [View] [GitHub]

2026

3-role (Admin, Teacher, Student) platform with 12 interconnected MongoDB collections covering attendance, timetables, syllabus, exams, and notes distribution using React.js, Node.js, Express, MongoDB. Designed JWT auth with HTTP cookie storage, role-based route guards, and token persistence across all three access levels.

JanMitra – Civic Issue Reporting Platform | [View] [GitHub]

2025

Full-stack civic platform with Mapbox-powered interactive maps, location clustering, forward & reverse geocoding, and real-time issue status tracking using React.js, Node.js, Express, MongoDB. Built 15+ RESTful API endpoints with Cloudinary & Multer for image uploads, and a two-role system (Citizen & Admin) with admin dashboard for issue resolution and user management.

SKILLS

Core CS:	Data Structures & Algorithms, OOP, DBMS, OS, CN
Languages:	Java, Python, C, JavaScript, TypeScript
Web Technologies:	React.js, Next.js, Node.js, Express.js, Tailwind CSS, RESTful APIs
DevOps & DB:	Docker, MongoDB, Bash Scripting
Tools:	VSCode, Git, GitHub, Google Analytics 4

ACHIEVEMENTS

Smart India Hackathon 2025 (Internal Round) – 6th place / 520 teams

Led frontend development, API integration, and database management for team *Code4Earth*. Built **JanMitra** – a scalable civic platform with real-time tracking and interactive maps using React.js, Node.js, Express, MongoDB, MapBox, Leaflet.js.

LeetCode – Solved 140+ problems across arrays, trees, graphs, and dynamic programming.

CERTIFICATIONS

- **Learn DevOps: The Complete Kubernetes Course** – Udemy 2025
- **Version Control with Git** – Simplilearn 2025
